

aquila[®]

bath lift

A lightweight reclining bath lift

With a backrest that reclines at the touch of a button, the Aquila Bath Lift is a welcomed addition to the Mountway bathing range. It is particularly suited to users whose specific conditions may benefit from opening the seat-to-back angle. Weighing under 10kg, the robust and compact Aquila offers an array of accessories making it flexible for use by children and in a variety of bath styles.

Supportive backrest with auto-controlled recline

Button-controlled angle adjustment

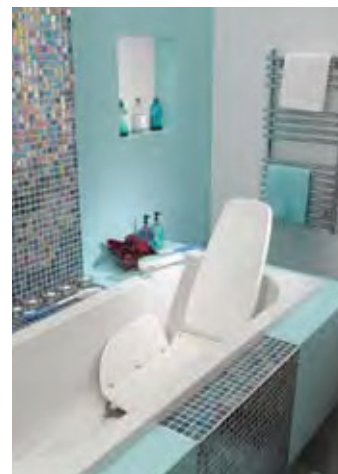

- Increases comfort for users with stiff hips or spinal problems (e.g. scoliosis, kyphosis)
- Improves hygiene access for users with large abdomens or stomas

Streamlined, higher-than-average design

- Increases shoulder, neck and/or head support
- Avoids additional costs of headrests

Compact design optimises legroom

- Good bathing space even when fully reclined
- Generous space for transfers on and off lift
- Low seat height provides good immersion

Adaptable to individual needs

Choice of easy-fit accessories

- Allow use of Aquila in a wide range of baths
- Multi-positional paediatric accessories provide varying postural support for children and smaller users
- Seat covers offer padding for increased comfort

Accessories (details p.12-15):

Cushioned covers

Pelvic & thoracic harnesses

Knee wedge

Pommel

- Slide & swivel aid
- Height adapter set
- Stapel hygiene step
- Carry bag
- Telecare
- Centre sucker fixture kit
- Side flap protector

Easy to move and handle

Lightweight and flat-folding

- Compact design can be carried against body for unobstructed view
- Space-saving storage

Separates into 2 lightweight sections

- No fiddly unreachable locks, backrest simply folds forward to detach
- Heaviest section – one of the lightest among reclining lifts for safer fitting and removal

Robust sucker-release handle and auto-locking seat unit

- No struggling under seat to detach individual suction feet
- No injuries from sudden opening of framework

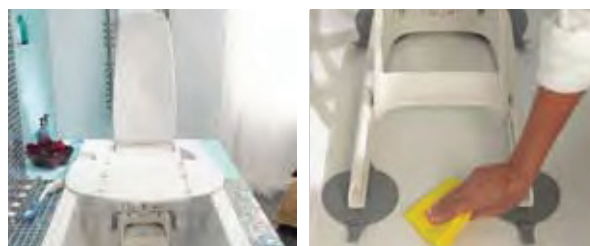

Hygienic and simple to clean

Unique, open base frame with limited crevices

- Easy access for cleaning bath surfaces
- Dirt and used water are not trapped
- Easy to clean

Silver-based antimicrobial solution

- Protects against harmful bacteria and bathroom mould

Safe and easy to use

4 large, pivoting suction feet

- Stable fit on curved bath surfaces
- Allow positioning far back in bath for increased legroom

Slim-line hand control with large rocker switches

- Can be held in one hand
- Easily operated by users with limited dexterity or visual impairment

Battery level indicator with Stop Descent™ feature

- Monitors when recharging is required
- Will not lower user without enough battery power to rise

Optional Telecare alarm system

- Help can be summoned in a medical emergency when used with Tunstall lifeline 400, 4000+ and Connect+ units
