

A great all-round bath lift

Mountway's Neptune Bath Lift has been designed in close consultation with both professional carers and a variety of users, to ensure that it offers an excellent bathing experience. The Neptune offers impressive legroom, sits low in the bath and is one of the lightest battery-powered bath lifts available.

Neptune's unique design also allows fitment in almost any style of bath, making it a highly versatile and great all-round bath lift.

Suits virtually all baths for an enhanced bathing experience

Seat locates at very back of bath

- Suitable for short baths and taller users
- Fewer obstructions for transfer on and off lift

Short footprint

- Suckers avoid most rippled bath surfaces for stability

Flexible suckers with neat frame and seat

- Unconstrained fit in narrow and kidney-shaped baths

Contoured side flaps

- Avoid most bath handles for unobstructed use

Low seat height at bottom of bath

- Maximises water immersion in shallow baths
- Good for homes with water meters

Optional extra-wide side flaps

- Provide safe transfer platform and maximise legroom in corner baths

High seat travel

- Provides level transfer in deep baths

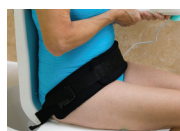

Accessories:

Cushioned covers

Corner and wide bath kit

Pelvic harness

Side flap protectors

- Telecare
- Slide and swivel aid
- Carry bag
- Stapel hygiene step

Easy to move and handle

Total weight of only 9.5kg

- Reduces risk of moving and handling injuries

Compact design curves around the body

- Follows guidelines for safe lifting of loads
- Allows unobstructed view when carrying
- Space-saving storage at home and in car

Separates into 2 lightweight sections

- Reduces back strain when fitting and removing
- Limits stooping or stretching when lifting in and out of bath

Hygienic and simple to clean

Smooth, accessible and crevice-free surfaces

- Dirt and used water are not trapped
- Makes cleaning quick and easy

Silver-based antimicrobial solution

- Protects against harmful bacteria and bathroom mould

Streamlined framework

- Provides access to bath for cleaning with lift in situ

Safe and easy to use

Waterproof, slim-line hand control

- Can be held and operated in one hand
- Can be easily stuck to most bathroom surfaces

Large, textured rocker switches

- Easy to operate for people with limited dexterity or visual impairment
- Can be pressed by heel of hand or elbow

Battery level indicator

- Monitors when recharging is required

Stop Descent™ feature

- Will not lower user without enough battery power to rise

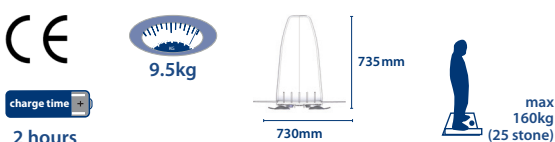

Optional telecare alarm system

- Help can be summoned in a medical emergency when used with Tunstall lifeline 400, 4000+ and Connect+ units
