Alegio low position

Easy to use hand control

Model SB-ALEGIO

Features	Benefits
One of the lightest beds on the market at 63kg	Allows easy transport and manoeuvring by care giver
Simple and easy to use colour coded hand control unit operates electrical height adjustment from 36cm to 80cm	Provides user with autonomy and assists with caregivers' workload
Alegio mattress base height can be raised to 80cm	Ensures a safe working environment for the carer, providing optimal conditions for both carer and patient
Alegio mattress base height can be lowered to 36cm	Combines comfort and exceptional ease with access to and from bed creating optimal conditions for both caregiver and patient
Epoxy powder coating in combination with shot-blasting	Provides an exceptionally strong and smooth surface - easy to clean and highly resistant to scratches and rust. Environmentally friendly as there is less waste with re-use of powder coating
