

Yes, you can.®

➤ Invacare® **Etude® Medley** **Etude® Medley Select**

Cost effective Patient Care

The **Etude® Medley** from Invacare® offers the perfect balance of budget, functionality and quality requirements. The four-sectioned profiling mattress support allows for a range of height combinations, providing an ideal position for the carer and comfort for the user. By the addition of specially designed bed end fascias, the **Etude® Medley**, can be transformed into the Invacare® **Etude® Medley Select**. This stylish bed is available in a beech finish that gives the type of homely feel that will integrate into any Home and Residential Care environment. Both beds are easy to transport and simple to assemble.

➤ **Improved functionality and efficiency**

The *Invacare® Etude® Medley* has been specifically designed for quick transportation, to meet the needs of the transient working environments of Home and Residential Care provision. It comes equipped as standard with a transport kit so that the bed can easily be disassembled, moved and re-installed in various locations. In addition, any assembling can be done without the use of tools or technicians, saving you time, money and effort.

➤ **Height is no longer an issue**

The flexible design of the *Etude® Medley* allows the bed to be mounted at a low height or a higher position, creating a range of working heights for the carer and transfer heights for the patient. This is facilitated by the unique feature of the bed end, which enables the mattress support to be mounted at both upper and lower positions.

Options

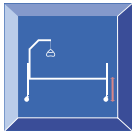

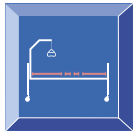

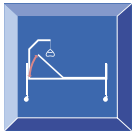

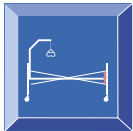

The *Etude® Medley Select* comes in an attractive, homely design and can easily be collapsed and stored on a transport kit for moving and storage. The *Etude® Medley Select* is supplied with a Rastofix kit, which allows the lower leg section to be raised. (N.B. Rastofix is not included as standard on the Etude Medley).

Double height positions on bed ends
Adjustable height ranges of 33 - 73 cm or 40 - 80 cm are available.
