

Yes, you can.[®]

➤ *küschall*[®] K-Series – K4 **NEW**

The new K-Series 2006 – for total freedom of movement

The new *küschall*[®] K-Series was reengineered to offer total freedom of movement and combines unsurpassed lightness, driving ability, and comfort to access a maximum of mobility. The new K4 offers best maneuverability and is ideal for individuals in search of utmost quality and performance. It unites stability and more compactness thanks to the improved handling and adjustability of the foldable backrest.

➤ **küschall® Suspension: suspended lightweight**

The user glides comfortably over any terrain with the Suspension system. It takes up vibrations and bumps directly in the seat unit without losses in traction or driving performance. The driving power is transferred directly to the rear wheels. The user enjoys the simple individual adjustment of the Suspension and gains in both activity and driving comfort.

➤ **Vario-Ax camber adjustment**

The Vario-Ax option allows an individual adjustment of the rear wheel camber of 1°, 3°, 7° and 10°. The Vario-Ax is available for all **küschall®** rigid wheelchairs (*K-Series* and *Fusion*).
