➤ Invacare® **Softform® Premier**

Clinically Proven - Pressure reducing static mattress

The *Invacare® Softform® Premier* is a high specification replacement mattress designed to meet the demands of the Community and Acute healthcare environment. Practical and durable, this mattress delivers exceptional levels of comfort and pressure reduction. The **Softform® Premier** is suitable for those considered at 'High/Very High Risk' (Waterlow score - 20)* of developing pressure ulcers.

Warranty
Foam 8 Years
Cover 4 Years

➤ Effective pressure ulcer prevention

The *Invacare® Softform® Premier* features a unique contoured insert pad, constructed from 'keyhole cut' castellated foam cells, which move independently to provide excellent patient comfort and optimise pressure reduction. The mattress cover offers two-way stretch and waterproof properties, and positively helps to reduce shear and friction forces against the client. The mattress insert has a non glued construction, which allows excellent conformity when profiled on electric bed frames.

➤ Cover is resistant to fluid ingress

The outer cover is a two-way stretch, waterproof, polyurethane fabric with high frequency welded seams; and a full length flap concealing the zip. These features combine to effectively reduce the potential of fluid entering into the mattress. The base of the mattress features a toughed PU coating to prolong the longevity of the mattress.

Options and Features

Single piece foam "U" core

Facilitates patient transfer by providing effective side-wall support. Robust foam base prevents the mattress from bottoming out.

Full length flap conceals zip

The full length flap protects the zip. This reduces the possible risk of fluid ingress, preventing contamination of the foam core.

Does not require turning or rotating

This mattress does not require turning or rotating, significantly minimising manual handling issues.

Technical data

Std Width:
80, 83, 85.5, 88, 90 cm
Additional sizes available on request.

Std Length:
200 cm

Height: 15.2 cm

Weight: 12.5 kg

Max. Client Weight:
247.6 kg
(39 Stone)

Cleaning: 80°C
Refer to instructions
for use and relevant
infection control
guidelines.

Colour

Fuchsia (PU)

Manufactured to European Standards:
Foam: BS 5852: Crib 5; Cover BS7175: Crib 5.

* Essential nursing care is pivotal in pressure ulcer prevention. This mattress will positively contribute to the outcome of a pressure ulcer prevention care plan. Education, clinical judgement and action based planning based on vulnerability are fundamental factors in the prevention of pressure ulcers. The Waterlow score is a formal method of assessing risk from pressure ulcer development, and should be used in conjunction with an informal assessment (informed nursing judgement). Informal assessment is considered to be of greater importance and clinical value.
