

▲ Pressure is centralized on normal wheelchairs

▲ Pressure is distributed when using tilt-in-space

VIP 505 (KM-1510.3T)

The VIP treatment you deserve

A revolutionary folding aluminium folding tilt in space wheelchair, the perfectly matched gas cylinders provide the user with seat angles from 0 to 35 degrees.

▼ Functions

1. Height adjustable backrest cushion has added lumbar support and can be detached for easy cleaning.
2. Backrest cushion can attach to headrest or fold over the backrest. Attach to the headrest when reclined to reduce and distribute pressure on your back.
3. Detachable headrest has an extra push handle for easy attendant propelling when fully tilted.
4. Ergonomic short armrests allow the user to get close enough to a Workstation.
5. Dual attendant brake for easy use and added safety.
6. Upholstery for ultimate breathability in hot and humid weather.
7. Length adjustable anti-tippers for better balance and safety when reclined with heavier users.

▼ Features

1. Intelligent 0-35 center-of-gravity weight Shifting tilt-in-space seat shifts pressure to reduce bedsores.
2. ægis Microbe Shield permanently bonded Antimicrobial barrier upholstery protects from odour, staining and deterioration from bacteria, fungus and other Microorganisms.
3. Bio-technology: paint coating uses special Anti-bacterial materials.
4. One of the few foldable tilt-in-space models on the market.
5. Collapses to only 77x34x77cm when the backjoint is folded and Headrest removed for easy transport/storage.
